A simple personality test determines who your Inner Beatle is and how you interact with other Johns, Pauls, Georges and Ringos of the world - at home, at work, and on the street. The tenets of Beatleology are simple: every person has an Inner Beatle or 'Beatle Sign' guiding their destiny and governing their behavior. Every aspect of life can be understood in terms of the principles of Beatleology and how Johns, Pauls, Georges and Ringos interact together. Love, family, business and politics are all affected by Beatleology or Beatle-Science as it will become known. "Beatleology" is an entertaining look at how Inner Beatles shape our lives. In the spirit of our favorite 'cheeky lads from Liverpool,' "Beatleology" combines pop culture and pop psychology with a sprinkling of New Age added to the mix. "Beatleology" is both homage to the band and a self-discovery tool. In "Beatleology", we take an original, nostalgic, and fun look at one of the most iconic and adored cultural phenomena of all time. If you're an optimistic, cheery person who likes to write bad poetry, you are probably a 'Paul'. If you're a brooding, introverted artistic type then you are probably a 'John'. If you tend to take life as it comes with a happy go-lucky attitude, most likely you are a 'Ringo'. If you are an introverted and thoughtful person with a tendency toward passive aggressive behavior, you might be a 'George'.
