Wouldn’ t it be nice if your child committed herself to doing a simple act of kindness every day? As today’ s culture seems to grow more self-centered and obsessed with me,” Dr. Michael Ungar refreshingly points the way to raising we” thinkers. Perhaps most inspiring about Ungar’ s findings: today’ s kids are eager to help out and be noticed. What they need, though, is compassion, encouragement, and attentiveness to their most important connectionsthose made at home. By recounting the inspiring stories of his work with families, Ungar reveals how the emotional bond kids crave and the support adults provide can help our children realize their full potential. Filled with practical tips, this guide will inspire every child and adult to be their best, most giving self.
