Sometimes unconventional, often unexpected, and always entertaining Marc Morrone, Martha Stewart's resident pet keeper, has finally come out with his first book on fishes, Ask the Fish Keeper. From a very young age Marc Morrone has been enamored by his

aquarium pets and in his new book he finally has a chance to offer his unique and candid questions on subjects ranging from filters to fish food, and guppies to groupers. With additional anecdotes from his decades of fish-keeping and lively illustrations by famous illustrator Jason O' Malley, this book is a must-have for any fish owner in search of a creative and fun new way to find the answers to their strangest fish dilemmas.
