Treasure Hunt takes readers on an exciting journey through Sam's house as he and his friends hunt for clues and find hidden treasures. Kids will enjoy learning to play treasure hunt as they look for the clues on each page. Sam's favorite babysitter, Clare, creates a treasure hunt that has the kids searching through bedrooms and toy chests for the next clue. Everyone in the gang contributes in finding the special treasure revealed at the end of the story. The book comes with suggestions for clues that parents and children can use to create their own treasure hunts at home. Project Play books were created to inspire families and neighborhoods to play backyard games that demand imagination and foster creativity so children can channel those skills into their adult lives. This same spirit of adventure and creative play are the foundation of all the stories and backyard games in the Project Play series.
