Emily's the sick one . . . all of the time. Plagued with some sort of cold or fever or bizarre aches and pains for much of her life, Emily thought the dizziness and stomachaches at the start of her senior year were just another bout of "Emily flu." But when they didn't go away, she knew something was seriously wrong. Eventually diagnosed with the rare and incurable West Nile virus, Emily watched her senior year and the future she had planned for go up in smoke. "I want a normal life for a teenager. I want to ache from a long day at work. I want to be so busy that I don't have time to post on my blog. I want to run the race of life instead of being pushed along it in a wheelchair. I want to be on the ride of my life, you know?" Because Truth Is More Fascinating Than Fiction
