isbn:9781439057155

Master the software that industry professionals are using to create compelling architecture with PAUL F. AUBIN'S MASTERING REVIT ARCHITECTURE 2010. Experienced-based practical advice is at the core of this concise reference guide by veteran author Paul F. Aubin, who makes learning Autodesk RevitA(R) Architecture

2010 easier than ever. Designed to shorten the learning curve, this book focuses squarely on the rationale and practicality of the RevitA(R) Architecture process through a series of hands-on lessons that promote a clear sense of the value of the software and an understanding of each tool's potential. In completing building design projects successfully, users will develop a first hand knowledge of what it takes to build design development models and create a complete set of construction documents for architectural production.
