What child doesn't imagine being able to fly? Well, Bear is no different. When he sees seagulls at the beach whirling and diving, he must learn how. Luckily, there are four children who know exactly how to make that happen: Take a trip to an amusement park and play on all the rides. "Swoopy swoopy swoopitty swoop" An exhilarating story that showcases Rosen's signature lyrical style, "Bear Flies High" is another perfect read-aloud with a familiar and lovable character.
