Ray Downey wrote the first edition of The Rescue Company in the early 1990s. Building on Downeyas legacy, John Norman has written Fire Department Special Operations to take into consideration the earth-shattering events, funding increases, research advances, expanded capabilities, and changes in regulations and standards that have widened the knowledge gap since the publication of Chief Downeyas book. Fire Department Special Operations is an excellent guide for agencies and individuals in establishing, staffing, operating, and maintaining heavy rescue units in the many forms they may take. It is also an ideal training resource for the officers and individuals assigned the duties that a rescue firefighter must accomplish.
