The 150th anniversary of Puccini's birth in December 2008 provides a very good reason to dedicate a release in the series A Biographical Kaleidoscope to one of opera's most famous composers. This book is another first-class portrait of a composer by author Detmar Huchting. Music CDs: 4 CDs combine the highlights of Puccini's musical works with, amongst others, complete recordings or excerpts from operas such as *Tosca*, *Turandot* or *Gianni Schicchi*.
