Dr. Glaser published this book as a clear and cogent correction of the many misleading ideas in Basics of Qualitative Research, by Anselm Strauss and Juliet Corbin (1990) Sage Publications. Its corrected view of the underlying logic of grounded theory will enable researchers to get on with their research and keep up their productivity.

扎根理论研究概论：自然呈现与生硬促成 巴尼 G. 格拉泽 （著） 费小冬 （译）
