No mere escapist fantasies, the reimagined fairy tales of the late 20th-early 21st centuries reflect the social, political, and cultural truths of our age with insight, intelligence, and complexity. Sixteen essays consider fairy tales recreated through short stories, novels, poetry, and the graphic novel from both best-selling and lesser-known writers, applying a variety of theoretical perspectives, including postmodernism, psychoanalysis, Marxism, feminism, structuralism, queer theory, and gender studies.
