Katie Bennett and the Precious Girls Club are on a mission. It's called Operation Kindness. They want to cheer up the sad, lonely children who are sick and have to stay in the Shine Community Hospital. But there's a big problem! Katie and her friends are trying to use their special talents to help other people. They are sure they can make the children in the hospital laugh by presenting their fun new puppet show. But getting Mr. Boxer, President of the hospital, to let them do it is a lot harder than they expected. Come along with Katie and her friends on this important mission as they solve the difficult problem with a little help from Faith, Katie's guardian angels, and one of their own club members, Lidia. You'll all be in for some big surprises along the way!
