The Cambridge Women's Pornography Cooperative is back with a new installment in the "Porn For Women" series, this time with 40 titillating scenarios for the blushing bride. Glossy photos showcase ultra-handsome, ultra-sincere grooms carefully considering every detail of the big day. Engraved invitations or embossed? Freesia or peonies? Waterford or Limoges? It's so hard to choose. These hotties write the thank-you notes, insist the bride put on some weight before the wedding, and best of all, they take over the cooking and cleaning so she can rest up before the big day. Who wouldn't say 'I do' to that?
