This essential driver's manual helps you to learn how to re-attach a bumper, drive

down a flight of stairs, survive road rage (your own and other people's), and much more. From the "Worst-Case Scenario" folks, here is more invaluable advice for surviving life's most dangerous and uncomfortable situations. The pocket guides provide all new material in a scaled-down form, focusing on more specific situations and occasions, with How-Tos, Instant Solutions, and charts providing information on how to extricate yourself from different situations.
