Bob Barner's dino-themed book "Dinosaur Bones" has sold nearly 50,000 copies and received a starred review from "Publishers Weekly". He is also the author of "Dinosaurs Roar, Butterflies Soar" (spring 09). Though there are many matching games on the market, very few are dinosaur-themed - and none have Bob's track record of successful picture books. Dinosaurs are perennially popular for preschool-aged children. This title features classic family game with fresh, contemporary spin combined with Bob Barner's fun, colorful artwork. It includes box with magnetic closure that keeps cards inside; very portable. It helps children build skills in matching and develop memory. It teaches the names of a variety of dinosaurs.
