Moleskine returns to its origins of providing quality stationery tools for professionals and gifts for the cognoscenti, with its new collection 'Folio' aimed at artists and architects, designers and office users. The new series, perfect for the art supply market, has all the usual features the Moleskine fan has come to expect including high quality FSC approved paper, but is characterised by 'outsizes', A4 & A3, never before seen in the Moleskine range. This version comes with squared paper, rather than ruled.
