Ages 2 to 4 years. The numbers are the same ...counting them is a whole new experience! Grasp the convenient built-in handles and open the covers. A ribbon appears, almost by magic, with a bright little bee printed on it. With a turn of the page, a second ribbon with two pretty little butterflies appears. And so, on to 10. Think you are finished? Indeed not! Turn the book upside down and count back to one. A deceptively simple silk ribbon action, dazzling printing, clear design, and a mesmerising page-turning sequence adds up to -- well, far more than ten!
