Arguing that American culture appeals to and is populated by children and adolescents who merely appear to be adult men and women, the essays in *Perpetual Adolescence* examine the Jungian archetype of the "eternal youth"--the puer aeternus--as it is manifested in the arrested development of American culture. From the infantilization of the American psyche and the lionization of teenaged celebrities and bodies, to fanatical conformity, and puerile entertainment, the contributors probe the various ways that American television, music, film, print, Internet, education, and social movements work to nourish and sustain this child archetype.
