isbn:9781605471006

This Second Edition of The Respiratory System and Asthma Anatomical Chart features simplified text and clearer images to facilitate patient comprehension. The chart shows the respiratory system and compares a cross-section of a normal bronchiole to an asthmatic bronchiole, with labels that point out mucus plug, bronchospasm, enlarged smooth muscle, inflamed surface epithelium, enlarged basement membrane, and inflamed bronchial tissue. Succinct text describes asthma, the conducting system, and gas exchange. The chart also provides images and text to show how breathing works

and visual icons to represent common asthma triggers: weather, exercise, irritants, allergens, illness, and pollution.
