Ventures is a six-level, standards-based ESL series for adult-education ESL. The Ventures Multilevel Lesson Planner is an invaluable part of the Ventures series. This guide will help teachers exploit the common themes of the units across the five levels of Ventures. By providing templates for lessons, instructors will be able to organize the existing materials and to manage a classroom in which students at different levels use different levels of Ventures in the same class. The Multilevel Lesson Planner will also include a CD-ROM with 21 of the openers from various levels of the Student's Book.
