Effective Management of Long-Term Care Facilities explores the complex operations of

the long-term care facility and offers critical skills to current and future nursing home administrators for delivering quality, cost-effective services. The Second Edition has been thoroughly revised and reorganized to offer a more cohesive presentation of the material, as well as new, in-depth information on licensing and important skills for becoming a nursing home administrator. An all new section explores the management of specialized facilities including assisted living facilities, special care facilities, and continuing care retirement centers.
