Sick of everybody ruining your buzz simply because you own a collection of bonges that would make Cheech and Chong blush? Or thinking you're a stereotypical stoner who chose to pay for a dime bag rather than your credit card bill (it was only that one time!)? Well, reload that bong and prove them wrong by lighting up with Weed. In this giggle-inducing, irreverent look at weed, discover all of those things nobody would dare tell you when you're high because they think you'll freak out. But they're high too, so what do they know? Lie down, eat some brownies, and read about things like: Pot helps with hangovers; Why the Man really doesn't want you to be happy with your weed; and, You really can make a bong out of any inanimate object. "Weed: 420 Things You Didn't Know (or Remember) about Cannabis" - because it's okay to turn off The Wiggles for a little while and mellow out with a good book.
