When Paul Smith can’ t pay his bills, fate and a strange set of events brings him in contact with Mary Session, a retired IRS auditor with a \$20 million bank account who takes Paul into her home and begins teaching him the four laws that made her debt-free and financially secure. Dr. Stephen R Covey says “This profound audio deals with a topic that is absolutely critical to quality of life for everyone. No matter who you are or where you live, for most of your life you will deal with economic issues. And these issues not only affect the amount of money you have in your wallet, your bank account, or your 401k; they also affect your relationships, your lifestyle choices, your levels of stress, your ability to contribute, and your personal peace. I found The 4 Laws of Financial Prosperity to be truly unique and inspiring in several ways. Members of my own family have enjoyed and learned from this and I believe you will too.”
