This program teaches that there is one thing that is common to every individual, relationship, team, family, organization, nation, economy, and civilization--one thing which, if removed, will destroy the most powerful government, the most successful business, the most thriving economy, the most influential leadership, the greatest friendship, the strongest character, the deepest love. On the other hand, if developed and leveraged, that one thing has the potential to create unparalleled success and prosperity in every dimension of life. Yet it is the least understood, the most neglected, and most underestimated possibility of our time. That one thing is Trust. Like the ripple in the pond The Speed of Trust begins within each of us personally, continues in to our relationships, expands into our organizations and ultimately encompasses our global society. In this live program Covey teaches the 13 Behaviours common to high-trust leaders throughout the world and demonstrates actionable insights that will enable you to shift your behaviour to increase trust in all your relationships. The Audio package includes a set of teaching cards from the seminar
