Wayman's Ford, the easiest crossing of the Brazos River for the cattle herds trailing north to the Kansas railheads, is controlled by the Pickering brothers. When they try to exert too high a toll for the use of the ford, trouble comes from the Broken U outfit. Killing leads to killing and Dan McCoy, Sheriff of Red Springs, moves in to prevent a full-scale war between the two outfits, but arson, rustling and kidnapping sweep the Brazos country around Red Springs, before Dan, aided by his deputy Clint Schofield, and the Collins family, finally brings the criminals to justice.
