If there's one thing Bureau of Indian Affairs Investigator Emmet Quannah Parker knows, it's that the dead don't always stay dead. With him he carries the ghosts of a partner killed in action, three failed marriages, and a long affair with the bottle. And now he's about to face the most dangerous case of his career--one that begins with a body that doesn't stay buried.

Brutally murdered and bizarrely mutilated, a woman's corpse is discovered on Havasupai Nation land. Parker is paired with FBI Special Agent Anna Turnipseed in a hastily assembled task force of two. The two share a mixed Native American ancestry...and little else. As they are pulled deeper into a complex case, Parker suspects they are being led--like Custer into Little Bighorn--into a killer's trap, with Anna the bait and Parker himself the quarry. At the heart of it are the dead, with history the most lethal weapon of all....
