isbn:9780786446797

This encyclopedic reference work treats a near-century's worth of Japanese films released in the United States in theaters or on video and the important actors, directors, producers and technical personnel involved in them. For people, each entry provides birth date, education, death when appropriate, a brief biography, and a filmography. The movies are arranged by original U.S. release titles, and include cast and production credits, studio, Japanese and U.S. distributor, sound format, running time in both the U.S. and Japanese versions, release dates in both countries, alternate titles, and rating, when appropriate, of U.S. release.
