Middle-schoolers Gregory Guest and Yolanda Torres have no intention of becoming heroes overnight. But as the only kids in Bainsboro who see that the world has gone horribly wrong, what choice do they have? Aided by their eccentric science teacher and Gregory's trusty red monocle, Gregory and Yolanda travel into the King Arthur legend to save today's real world from a legendary threat. As they ally themselves with the magician Merlin and his young apprentice to thwart the sorceress Morgan le Fay's machinations, these reluctant heroes must set whole worlds right again. The first book in the Red Monocle series by esteemed authors Wim Coleman and Pat Perrin, *The Taker and the Keeper* will keep young readers up at night as they get swept away in this tightly-plotted, hair-raising adventure.
