Einstein looked up to him, the Nazis tried to abduct him, his institute in Copenhagen hosted just about every Nobel prize winner in physics you can name (and then some), and Winston Churchill considered him a dangerous, dangerous man. His friends and enemies agreed: Niels Bohr was more than the father of quantum mechanics - he was one of the most important figures of the 20th century. The Tony Award-winning Broadway play "Copenhagen" barely scratched the surface... *Suspended in Language* tells the complete story of Niels Bohr's amazing life, discoveries, and his pervasive influence on science, philosophy, and politics. Told in an engaging and accessible mixture of text and comics, it includes a full color supplement on how to teleport just like the pros do - and why you might not want to

书评

Bohr爷爷的一生，in a nutshell.
我即使在小时候，同学都看漫画书的年代，也没看过漫画书，为了八卦Bohr爷爷，才看了第一本。一本漫画书，文字部分的篇幅必然是有限的，不多的字数，讲完Bohr爷爷的一生。书的名字叫Suspended in Language，Bohr的不善言辞，是全书贯穿始终的一...
