The relationship between a mother and daughter is one of the most profound bonds in life. A mother feels her daughter's first kick during pregnancy, labors to bring her daughter into the world and watches as she takes her first breath of life. Similarly, a daughter opens up a new world and range of emotions to her mother, allowing her to feel an unconditional love she didn't know she possessed. The heartwarming stories in this volume are meant for women at all stages in this wonderful relationship: new moms in awe of their daughter's first step, veteran moms in a panic as their daughter leaves for her first prom; teenage daughters who are struggling with mom's authority, or forty-year-old daughters who find themselves thinking I'm just like my mom. Special chapter openers feature heartwarming photographs, and the special journaling pages can be completed before giving the book as a gift for an extra personal touch, or they can be completed together to create a special family keepsake that will bring joy for years to come.

More than just a storybook gift, this volume allows for that extra personalized touch that will make Mother's Day, a birthday, or any day that much more special.
