Parchment craft, the art of piercing and embossing translucent parchment paper to create delicate, lace-like designs, originated in the cloisters of Spain in the 15th century. This book shows, in colour step-by-step sequences, how to trace, perforate,

emboss, cut and tint the parchment paper to create greeting cards and bookmark designs. The pictures and patterns can be enhanced by simply adding ink, paint, pastel and crayon. Delicate highlights, rainbow effects and subtle shading are achieved with watercolor pencils and oil pastels. Inks give a matt effect and pearlized paints add lustre.
