Barcelona is the gem of Catalonia, abundant in rich and colourful architecture and design. This book reveals the historic interiors of a wide and varied range of the most interesting historic interiors. Specially commissioned photographs capture the essence of the buildings, from those of Antonio Gaudi and Josep Cadafach, to the grandeur of the Opera House and the intimacy of an old candle shop. The city's hotels, restaurants, cinemas and civic buildings are also featured. Each photograph is accompanied by a short text which reveals historical anecdotes attached to the

interior and points out all the original features and aspects of architectural and design interest. Comprehensive information on buildings open to the public is included.
