装帧:

isbn:9780736801621

Here's a fascinating series that's both educational and fun to read. Each book highlights the physical characteristics, demeanor, history, and special features of popular breeds of dogs. A chapter on pet care offers hands-on information. Beautiful full-color photographs and high/low features support struggling students and lead them to success in reading. This series explores and supports the standard "The Living Environment: Diversity of Life," as required by the Benchmarks for Science Literacy: Project 2061.
