The first collection of spine-tingling short stories from the world's bestselling author, Stephen King -- repackaged When the sun goes down and the day workers have all gone home it's time for...the "Night Shift". From the darkest bowels of the earth where hideous rats will stop at nothing to defend their empire, to dizzying heights where a cornered man makes the biggest bet of his life...for his life, this chilling collection of short stories will plunge you into the subterranean labyrinth of the eeriest imagination of our time.
