For the First Time, all the commercially published short stories F. Scott Fitzgerald wrote before and during his work on what would become his great American novel, The Great Gatsby, have been collected in one volume. Published between 1919 and 1923, these twenty-six stories -- most of which appeared in the Saturday Evening Post and in two Fitzgerald volumes, Flappers and Philosophers and Tales of the Jazz Age -- document the striking development of Fitzgerald's professionalism and short-story craftsmanship during his twenties. Edited by Matthew J. Bruccoli, the foremost expert on Fitzgerald, the annotated and generously illustrated collection reproduces magazine artwork, manuscripts, advertisements, and photographs that provide a rich contextual backdrop for understanding the ways American life shaped Fitzgerald's fiction.
