Anthony Elliott presents a comprehensive introduction to psychoanalytic theory and its applications in the social sciences and humanities in this new and fully revised second edition of "Psychoanalytic Theory." Elliott provides lucid interpretations of key psychoanalytic theorists such as Freud, Klein, Winnicott, Lacan, Deleuze, Kristeva, and Žižek. This revised edition has much new material, including a survey of psychoanalytic approaches to race and postcolonialism from Fanon to Homi Bhabha, as well as a look at the reframing of sexuality studies by such feminist theorists as Judith Butler, Helene Cixous, and Luce Irigaray. The book follows major themes, highlighting the similarities and differences among influential thinkers and schools of thought. At the same time, "Psychoanalytic Theory" is structured so that the chapters can be read in any order. Each one includes an introductory overview and summary, as well as biographical and historical material for each theorist discussed. This book is an essential starting point for any exploration of the contribution of psychoanalysis to contemporary theory.

评论

政治视角的精神分析史。主要侧重弗洛伊德的法国弟子们。常被提及的人物书里都有简要提及，主要思想倒是只有选择性的介绍。对德勒兹的误解太深。
