With this consumer's guide, buyers of home theatre systems will be taken through the

technology and components of home entertainment and learn how they suit their individual needs. Consumers will discover the best components for their needs, how to be a savvy shopper, how to avoid buying the wrong technology, and how to set up and fine tune a system. In addition, all the technologies behind home theatre are explained. These technologies include DVD players, audio/video receivers, multichannel speaker systems, high-definition television (HDTV), and digital satellite systems.
