You've lifted weights to improve your strength. You've taken ballet classes to improve your grace. You've enrolled in putting clinics and driving seminars. You've even gone on golfing vacations. (How you suffer!) You've done everything you can think of to improve yourself in pursuit of a better golf game; why not see how technology can

help? In these pages, noted golf author (and darn good golfer himself) Andy Brumer provides fascinating insight into how technology is changing the game of golf and how you can improve your game because of it. You'll find a four-color, highly illustrated assessment of the latest technology being employed in clubs, balls, and every other golf-related item you can think of as well as an examination of how that technology is affecting the game. Peppered throughout are interviews with golf-world greats like Arnold Palmer, Gary Player, Phil Mickelson, Barney Adams (inventor of the Tight Lies fairway woods), Justin Leonard, Amy Alcott, a top ladies professional, and more.
