Few inventions evoke such nostalgia, such deeply personal and vivid memories as radio—from Amos 'n' Andy and Edward R. Murrow to Wolfman Jack and Howard Stern. *Listening In* is the first in-depth history of how radio culture and content have kneaded and expanded the American psyche. But *Listening In* is more than a history. It is also a reconsideration of what listening to radio has done to American culture in the twentieth century and how it has brought a completely new auditory dimension to our lives. Susan Douglas explores how listening has altered our day-to-day experiences and our own generational identities, cultivating different modes of listening in different eras; how radio has shaped our views of race, gender roles, ethnic barriers, family dynamics, leadership, and the generation gap. With her trademark wit, Douglas has created an eminently readable cultural history of radio. "Douglas's wonderful book offers a sophisticated history of radio listening." - *Journal of American History* Susan J. Douglas is professor of communication studies at the University of Michigan, Ann Arbor, and author of *Where the Girls Are: Growing Up Female with the Mass Media*.

interesting, but not as good as I thought...

电台复兴

Is Listening Dead?

当我们面对面却又都低着头时，当我们时刻保持连接却又不可救药的感到孤独时，闭上眼睛聆听吧。广播会借由互联网重生。
