From the street to the pipe and all the way to the luge, this book points the way to extreme fun right in a young reader's neighborhood. Tapping into the huge interest in America's sixth largest participatory sport, this action-packed guide shares the excitement and examines the special moves of street, vert, downhill, street luge, and mountain boarding. Kids also meet reigning stars of the sport and learn more about skateboard competitions, including X-Game and Gravity Game events.
