Health claims examining and medical billing are two of the fastest-growing employment opportunities in the United States today. Insurance companies, medical offices, hospitals and other health care providers are in great need of trained personnel

to create and process claims. With the aid of this text, a student can learn the skills necessary to become a successful health claims examiner. The material has been designed to be comprehensive, yet user-friendly. The text follows a logical learning format by beginning with a broad base of information and then, step by step, following the course of a health claims from billing to examining.
