

Analog Signals and Systems

[Analog Signals and Systems_ 下载链接1](#)

著者:Erhan Kudeki

出版者:Pearson

出版时间:2008-2-29

装帧:Hardcover

isbn:9780131435063

This book focuses on the mathematical analysis and design of analog signal

processing using a “just in time” approach — new ideas and topics relevant to the narrative are introduced only when needed, and no chapters are “stand alone.” Topics are developed throughout the narrative, and individual ideas appear frequently as needed.

感谢Prof. Kudeki让我转进ECE, 并且编了这么棒的课本。

俺是豆瓣上第一个读这个书的……
