Vegetable Dreams / Huerto so?ado is an old-fashioned story of a multi-generation friendship and the importance of sharing and nurturing dreams. When a young girl dreams of having a garden for herself, a next-door neighbor, a gardener in his younger days, helps her achieve her goal. In doing so, he regains the pleasures of his own past gardens. Both gardeners gain a valuable friendship. Drawn in vivid pastels, impressionistic illustrations intensify the gentle-hearted story.
