isbn:9780595515202

A compilation of writing that stems as a result of year long work using a Workshop format; an environment that drives students' to generate and develop their personal best. All writing has been written, chosen, revised and edited by eighth graders. We believe this work may inspire other young people to see the importance in their own voices; and to empower them to share it with others. This publication represents a team of writers who attend Pierce Middle School in Waterford, Michigan.
