This title is perfect for course review now...and NCLEX prep later! It features 1,263 questions that address all of maternal/newborn nursing class content. 1,013 questions in text are followed by a comprehensive 100-question test. And as a bonus, there's a

CD-ROM with two final exams of 75 questions each. The questions reflect the latest NCLX-RN test plan, with a focus on content related to physiological integrity. All questions in the final exam and on the CD include rationales for both correct and incorrect answers. This title includes: 1,263 questions in all - with rationales for both correct and incorrect answers; 100-question final exam with answers and rationales; a CD-ROM with two, 75-question final exams, coded according to NCLEX descriptors; and, test - taking tips for selected questions. Most questions are written at application and analysis level - just like the exam. All questions are field tested by nursing students. This title also includes introductory chapter on applying critical thinking to various question types. It features questions that reflect the NCLEX's increased emphasis on pharmacology and medication administration, management, delegation, and patient safety. It features approximately 300 new format questions spread across text, final exam, and the CD-ROM.
