It's hard to resist a fuzzy, cuddly canine. In one slipcase are two paw-sitively adorable volumes of Artlist Collection's priceless canines at their wet-nosed, ear-flopping best. The dogs are photographed at "strange ratios" against a crisp white background, which gives them endearingly enlarged heads and a unique intimacy. Eclectic, original, and addictive in their cuteness, these books beg to be looked at over and over and make them the perfect gift for every indulgent dog owner and dog lover.
