At a whopping 25 feet long, this eye-popping maze sets a world record for size and quality! Anyone fond of these popular puzzles - especially adults who haven't looked at a maze since they were children - will find solving this a stimulating challenge. You can try to complete it in one sitting, or come back again and again until you reach the finish line. And that's not all: when it's done, there's more fun in store. Start colouring in the path you've traced to create an incredible picture: a wonderfully detailed and lively street scene that begins with a boat in the ocean and passes a wedding, buses and cars, cosy homes, a robber on the run, dogs having their walk and more!
