Level 3-4. Arranged for Piano/Guitar With Lyrics by Michael Roth. 31 selections featuring Randy Newman's award winning compositions and songs from film, television, and

theater. This collection includes songs and several suites--piano adaptations of Newman's instrumental film music that shows a different side than his songs. These arrangements were assembled using the composers own notes and orchestrations, transcribing performances from various recordings, concerts and takedowns. Each piece contains historical and contextual comments from Randy Newman.
