Here's the most clinically oriented critical care text focusing on the adult patient. In

full-color and superbly illustrated with clinical photographs, imaging studies, and management algorithms, and with a broad multidisciplinary focus, this text will help you enhance your skills at any level of training.

- \* Stands alone as a clinically oriented comprehensive reference.
- \* Completely updated and authorship expanded to reflect the evolution in critical care practice.
- \* In color for the first time, with new color schematics and treatment algorithms for greater ease of reference.
- \* Utilizes key points lists at the end of chapter, to help you make decisions rapidly and easily.
- \* Delivers key references that list other useful resources for information.
