Hide N Seek Monday is the story of triplets-JaJuan, Jalen, Nevaeh-who must find a place to hide in their bedroom before their mother enters. The story follows their mother as she finds her babies, one by one. Children will fall in love with the creative triplets and not realize the subtle learning that is hidden within the words. While reading this book, children will build their vocabulary as objects in a bedroom are itemized. They will also receive a refresher on counting and exposure to rhyme and rhythm through the chorus of words. Finally, in the appendix of the book, parents and children will find fun activities to enjoy. In addition to Hide N Seek Monday, there will be six additional books, one for each day of the week. This series will help parents and teachers teach kids the days of the week through fun and engaging activities.
